DATA ENGINEER

Experience

Grupo Coutinho

Data Engineer

📅 March 2026 – Present

📍 Serra - ES, Brazil

- End-to-end development of modern cloud data pipelines and data lakes for large-scale ingestion and processing.
- Enterprise data modeling based on Medallion Architecture (Bronze, Silver, and Gold layers), structuring retail data for decision-making.
- Development of Apache Spark (PySpark and SparkSQL) applications for distributed processing of high-volume transactional data.
- Integration of heterogeneous sources (REST APIs, Oracle, SQL Server) and optimization of Power BI consumption via Direct Lake.

EDP Brasil

Data Governance Intern

📅 September 2024 – March 2026

📍 Vitória - ES, Brazil

- Development of Python and PySpark scripts in Databricks for data extraction and transformation, refining information in the Data Lake.
- Integration of complex databases (SAP and SQL Server) and execution of Data Quality validations to ensure indicator integrity.
- Creation of Power BI dashboards, transforming processed data into visual intelligence for strategic support.

Education

Federal Institute of Espírito Santo (IFES)

B.S. in Control and Automation Engineering

📅 2022 – 2027

📍 Serra - ES, Brazil

Projects

Dengue Sentinel (Sentinela da Dengue)

Python, Pandas, Medallion Architecture, ETL

📅 Jan 2026

[GitHub Repository](#)

- Development of an end-to-end pipeline consuming climate (OpenMeteo) and epidemiological (InfoDengue) data for outbreak analysis.
- Implementation of Medallion Architecture (Bronze/Silver/Gold) with Parquet storage and Hive partitioning for query optimization.
- Execution of complex transformations in the Silver layer, including timezone normalization and temporal aggregations to feed analytical views.

Certifications

Introduction to Machine Learning with Python

University of São Paulo (USP/ESALQ)

Skills: Python, Machine Learning, Pandas, Matplotlib, Seaborn, and Data Analysis.

Mar 2026

[Certificate](#)

Santander 2025 - Data Science with Python

DIO

Skills: ETL Pipelines, Data Analysis, SQL, and Introduction to Machine Learning.

Jan 2026

[Certificate](#)

Skills

- **Languages:** English - Intermediate, Portuguese - Native
- **Cloud & Data Engineering:** Distributed Computing (Apache Spark, PySpark), Cloud Data Lakes, ETL Orchestration, Databricks, Microsoft Fabric/Azure, Medallion Architecture.
- **Databases & Storage:** SQL Server, Oracle, Cloud Data Lakes, Parquet.
- **Languages & Analytics:** Python (Pandas, Machine Learning), SQL, Power BI (DAX, Direct Lake).
- **Tools & Others:** Git/GitHub, REST APIs, Linux.
